

Intermediate Macroeconomics Individual Coursework/Assessment (15% of Total Module Grade)

Lead Instructor:	Noushin Pouraghaei	Instructor's email:	Noushin.Pouraghaei@kcl.ac.uk
Submission Deadline:	via KEATS by 17.00 on Wednesday 19 March.	Submission checklist	1. 5-10 minutes recorded Video Submitted Via Keats with your candidate number. 2. Presentation Slides Word count (max. 1,000 words) File format for submission (.pdf / .docx)

The Task

This coursework assignment aims to enhance your presentation skills and your ability to effectively communicate complex concepts in a concise manner. You will be tasked with preparing a recorded video **presentation** on a chosen topic within the course material.

Assignment Details and Structure

1. **Video Length:** Your recorded video presentation should have a duration between 5 to 10 minutes.
2. **Slide Preparation:** You are required to prepare slides to accompany your presentation. The number of slides should not exceed 10.
3. **Content Inclusion:** Your slides should incorporate a variety of elements, including diagrams, formulas, statistics, equations, and explanations. These elements should be strategically utilised to enhance the clarity and comprehensibility of your presentation.
4. **Submission Method:** Your recorded video presentation and accompanying slides must be submitted via the Keats platform within the specified timeframe.

Video Assessment Question

You are required to solve the provided question and create a 5 to 10 minute video demonstrating the solution. In your video, strive to explain the solution in a clear and simple manner, presenting each step sequentially. Ensure to mention the name of each part of the solution for clarity. Additionally, prepare slides to accompany your video presentation. Utilise relevant diagrams and equations as needed to enhance your explanation. Take the time to explain each step thoroughly, providing a comprehensive understanding of the solution. Remember, the goal is to make the solution accessible and understandable to your audience.

The central banks of Ferenginar and Vulcan have distinct objectives: Ferengi's Central Bank aims to maintain price stability, while Vulcan prioritizes maintaining output and employment at their natural levels. Explain how each central bank (Ferengi and Vulcan) would respond to the following economic shocks:

- a) When an exogenous shock makes the price of dilithium crystals (the fuel of starships) rise.

[50 marks]

- b) When the Dominion War makes the velocity of money decrease.

[50 marks]

In your explanations, consider the respective objectives and policy frameworks of both central banks. Provide comprehensive analyses of the potential responses, considering the implications for price stability, output, employment, and other relevant factors.

General Submission Requirements

Component 1 - Slides:

1. File saved as [Candidate Number Module Name]
2. Word count (max 1,000 words)
3. File format for submission (.pdf / .docx)

Component 2 - Recorded Video

1. Follow the guidance on Keats, Assessment
2. Submit your video as [Candidate Number Module Name]

Additional Instructions:

- ?. Take time to acquaint yourself with the technical specifications needed for recording and uploading videos on the Keats platform way before the assessment day.
- G. If you have any uncertainties about the task requirements, don't hesitate to reach out to the instructor or teaching assistant for clarification before the questions are released. Please remember that assistance won't be available during the submission period, so it's crucial to address any queries beforehand.

Marking Criteria

The rubric for the video assessment in Intermediate Macroeconomics emphasises several key aspects crucial for a successful presentation. Students are evaluated based on their ability to demonstrate a thorough understanding of course material by accurately applying concepts and theories to the provided question. Effective utilisation of tools such as diagrams, equations, and data is essential for enhancing explanations and illustrating key points. Proper referencing adds credibility to the presentation, with accurate and consistent citations supporting arguments and ideas. Delivery and presentation skills are evaluated based on clear articulation, confident demeanour, and effective pacing, ensuring audience engagement throughout the video. Adherence to length and formatting guidelines is also emphasised to maintain consistency and professionalism. Overall, the rubric aims to assess students' ability to deliver a coherent, well-supported presentation that reflects their understanding of the subject matter and their proficiency in communication and presentation skills.

Video Assessment

Aspect/Weighting	F (0-39)	D (40-49)	C (50-59)	B (60-69)	A (70+)
Accuracy and Relevance	Presentation shows little to no understanding of course material, with concepts and theories incorrectly applied or entirely absent.	Presentation lacks consistency with course material, with significant inaccuracies or misunderstandings evident.	Presentation displays some understanding of course material, with occasional inaccuracies or inconsistencies in application.	Presentation shows a good grasp of course material, with most concepts and theories applied accurately to the question.	Presentation demonstrates a thorough understanding of the course concepts and theories, accurately applying them to the question provided.
Utilisation of Tools (Diagrams, Equations, Data)	Fails to effectively incorporate any tools (diagrams, equations, data) to support explanations, hindering understanding.	Includes tools (diagrams, equations, data) but their usage is inconsistent or does not significantly contribute to enhancing understanding.	Includes some tools (diagrams, equations, data) to support explanations, but may not fully utilize them to enhance understanding	Effectively incorporates various tools (diagrams, equations, data) to support explanations and illustrate key points, though some areas may benefit from further refinement.	Utilizes a wide range of tools effectively (diagrams, equations, data) to enhance explanations and illustrate key points, demonstrating advanced proficiency.
Delivery and Presentation Skills	Presenter's delivery is ineffective, characterized by poor articulation, lack of confidence, and erratic pacing, resulting in minimal audience engagement.	Presenter's delivery lacks consistency, with frequent disruptions in articulation, confidence, or pacing, affecting audience engagement.	Presenter displays adequate delivery skills, with occasional lapses in articulation, confidence, or pacing.	Presenter maintains good delivery skills, effectively communicating ideas with clear articulation and confident demeanour, though pacing may vary slightly.	Presenter demonstrates exceptional delivery skills, engaging the audience with clear articulation, confident demeanour, and effective pacing.

Proper Referencing	Fails to reference sources or includes inaccurate citations, diminishing credibility.	References are present, but citations are lacking or improperly formatted, detracting from credibility.	Includes references, but citations may be incomplete or inconsistently applied.	Demonstrates proper referencing, though some sources may be missing or not consistently cited throughout the presentation.	References sources accurately and consistently throughout the presentation, providing credible support for arguments and ideas.
Adherence to Length and Formatting Guidelines	Presentation is significantly shorter or longer than the specified range, with major formatting errors.	Presentation significantly exceeds or falls short of the specified length, with noticeable formatting errors.	Presentation length may slightly exceed or fall short of the specified range, with minor formatting issues.	Presentation length generally falls within the specified range and mostly adheres to formatting guidelines.	Presentation length falls within the specified range (5-10 minutes) and adheres to formatting guidelines with precision.
